

Please help us to recycle more

THANK YOU for helping us to reach our national recycling target of 50% by 2020.

The change to your bin collection dates will be rolled out across the district between February and April 2018. More detailed information will be sent to you nearer the time.

Find out more about changes to your bin collection service by visiting www.horsham.gov.uk/newbincollections

 **recycle**
for Horsham district

 **Horsham District Council**

Need an additional blue-top bin for recycling?

Recent research has shown that **20% of what we currently throw away as waste can actually be recycled.** Please help us to reach our national recycling target of **50% by 2020.**

If your recycling bin is already full you may like to apply for an additional recycling bin free of charge*.

For details of what can be recycled, including a handy A-Z guide, please visit www.horsham.gov.uk/bins/thinkbeforeyouthrow

Need a larger green-top bin for your waste?

As you can now move more into your blue-top (recycling) bin there should be sufficient space in your household waste bin.

If you feel you need more capacity, and you meet one of the following criteria, you may be eligible for a larger household waste bin, free of charge.*

- Medical needs
- Households with five or more permanent residents
- Households with three or more children in nappies.

If you already have a dispensation for a larger green-top bin you do not need to apply again.

* There is a delivery charge of £5.

If you need an additional recycling bin or a larger waste bin please make sure you **let us know by 30 November.** Apply online at www.horsham.gov.uk/newbincollections Tel: 01403 733144
